

CROKI

WHITEPAPER

WHAT IS CROKI?

\$CROKI is a token created by a team of talented individuals who are focused on building an entire utility-based ecosystem -- on the Cronos blockchain. Throughout our phases of development, we aim to operate with transparency, integrity, and respect for our community.

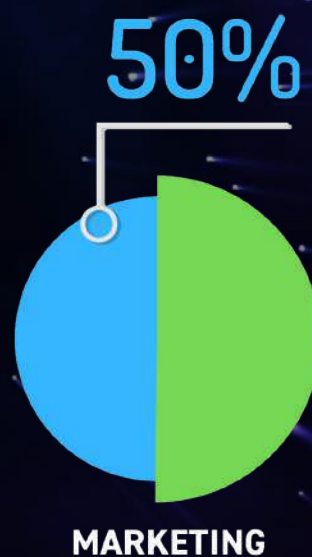

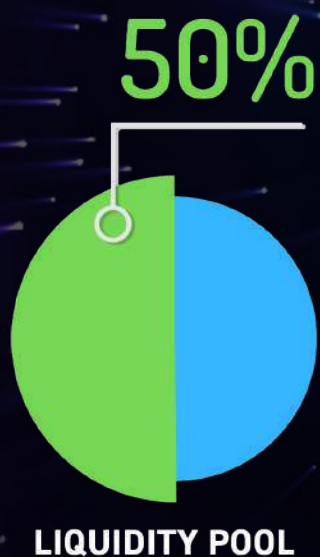

Together as a team and with the support of our community, we strive to meet our project goals in different phases — in a well-defined roadmap. Utilities will be developed for \$CROKI that will give us more momentum and a strong baseline. We are here to shape the future of this blockchain and be a diverse part of it along the way.

The standard for meme coins is to focus solely on aggressive marketing pushes, cult mentality, and of course; hype. They strike when the anvil is hot, and think about the use case later. With \$CROKI, we intend to bring you the best of both worlds by implementing solid utility and a strong community.

CROKI: THE TOKENOMICS

Cronos wants to dominate the DeFi TVL. The Cronos network aims to be one of the top 5 public blockchains by TVL by the end of the year. With their marketing strategy, it seems inevitable. Cronos has already devised a way to do this by providing an infrastructure for developers. Optimizing interoperability and expanding its DeFi, Metaverse, GameFi, and NFT ecosystems.

The tokenomics are simple, a rate of 8% is applied to each transaction. 50 percent is allocated to marketing and the remaining half goes to the liquidity pool.
